**THIRD-PARTY SUBMISSION UNDER 37 CFR § 1.99**

To the Commissioner for Patents:

Submitter hereby makes this third-party submission pursuant to 37 CFR § 1.99. The third-party submission is being made in the above-referenced patent application which was published on December 30, 2004 as Publication Number US 2004/0265777.

**Timeliness Requirement**

The current submission is being made after the date two months from the date of publication of the application, but prior to mailing of the notice of allowance. This submission is not being submitted within the time period set forth in 37 CFR § 1.99(c) as it could not have been submitted earlier. The submitter was aware of the withdrawal of the applicant's counsel and was waiting for new counsel to be appointed and/or a change of correspondence address to be filed

with the USPTO, so that service of the current Third-Party Submission could be served upon the applicant as required by 37 CFR § 1.99. When the Notice of Acceptance of Power of Attorney dated February 2, 2005 was published on the USPTO's PAIR system, the address shown was clearly erroneous. Thus, the submitter waited to file the Third-Party Submission in hopes that there would be an appointment of new counsel and/or change of the correspondence address for the application. When no new appointment of an attorney or change of correspondence address was filed for this application, an investigation was made for a correct address for the inventor, John M. Heasley, and this information was only recently discovered.
